DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claim 1 is allowable over the prior art of record because it fails to teach or suggest an image forming apparatus comprising a an intermediate transferrer to which the toner image on the image carrier is transferred, a secondary transfer roller which transfers the toner image on the intermediate transferrer onto paper, and wherein the secondary transfer roller can move to a first position to contact the intermediate transferrer, and to a second position to be separated from the intermediate transferrer , and the secondary transfer roller contacts the cleaning member when being located at the second position in combination with the remaining limitations of the claims.
 - b. Claims 2 – 11 are allowable over the prior art of record because it fails to teach or suggest an image forming apparatus comprising a an intermediate transferrer which transfers the toner image onto the image carrier, a secondary transfer roller which transfers the toner image on the intermediate transferrer onto paper, and wherein a rotational driving section which rotationally drives the secondary transfer roller and the cleaning member so that their peripheral velocities and direction thereof will be the same at a contact position where the secondary transfer roller contacts the cleaning member in

an ordinary operation, and that the peripheral velocities will be different when the jam is caused in combination with the remaining limitations of the claims.

c. Claims 12 – 13 are allowable over the prior art of record because it fails to teach or suggest an image forming apparatus comprising an intermediate transferrer which transfers the toner image on the image carrier, a secondary transfer roller which transfers the toner image on the intermediate transferrer onto paper, and a rotational driving section which rotationally drives the secondary transfer roller and the cleaning member so that their peripheral velocities and direction thereof will be the same at a contact position where the secondary transfer roller contacts the cleaning member in an ordinary operation, and that the peripheral velocities will be different when the jam is caused in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
